OXFORD INNOVATION: COVID-19 RISK ASSESSMENT (EDITION 7.2)(effective 1 September 2021)

Health and Safety Representative: Rob Wyatt, Operations Director

This Risk Assessment is designed to identify the risks appropriate to Oxford Innovation Limited (OI) and detail everything reasonably practicable to control those risks, recognising that we cannot completely eliminate the risk of COVID-19.

HAZARD: COVID-19 Coronavirus

RISK: Transmission & spread of COVID-19 Coronavirus

CONSEQUENCE: Infection, illness and death

RISK RATING: HIGH

<table>
<thead>
<tr>
<th>Likelihood</th>
<th>Severity</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>1</td>
</tr>
<tr>
<td>1 Unlikely to occur</td>
<td>Minor injury; minor damage to property/equipment</td>
</tr>
<tr>
<td>2 Likely to occur</td>
<td>LOW (1)</td>
</tr>
<tr>
<td>3 Extremely likely to occur</td>
<td>MEDIUM (3)</td>
</tr>
</tbody>
</table>

Risk prior to control measures: Extremely likely to occur (3) x severity is death (3) = Risk score of 9 (HIGH RISK)

Risk post-implementation of control measures: Unlikely to occur (1) x death (3) = Risk score of 3 (MEDIUM RISK)

This Risk Assessment applies to:
**ALL** Employees & Employers working within the Oxford Innovation’s managed and leased Innovation Centres (“the workplace”). This includes but is not limited to: Clients, Customers, Visitors, Agency Workers, Contractors, Cleaners, Suppliers and Delivery Drivers.

Special consideration is given to Vulnerable Groups and especially persons with an underlying health condition, the elderly, persons with a disability and pregnant women.

Key definitions are set out at Appendix A.

### 1. Managing Risk

**Objective:**

To reduce risk to the lowest reasonably practicable level by taking preventative measures.

Oxford Innovation Limited (OI) has a duty to reduce workplace risk to the lowest reasonable practicable level by taking preventative measures. We will work with other employers or contractors sharing the workplace, so that everybody’s health and safety is protected.

Where the “COVID-19 Secure” guidelines cannot be followed in full, in relation to a particular activity, businesses should consider whether that activity needs to continue for the business to operate, and, if so, take all the mitigating actions possible to reduce the risk of transmission between staff.

The control measures relevant to each Innovation Centre are detailed in centre-specific risk assessments, determined by this Risk Assessment and based on the government’s “COVID-19 Secure” guidelines.

OI’s Risk Assessment has been approved by the Managing Director. On 19 July HMG confirmed that businesses no longer need to display a COVID-secure notice.

The control measures set out in this Risk Assessment (RA) will be monitored remotely by the OI Operations Director and the Compliance, Quality and Health & Safety Manager, in conjunction with centre teams. Centre RA will be peer-reviewed through OI’s Centre Management Team, where any feedback, including from customers and clients, will be considered. Any changes will be escalated to OI’s Senior Management Team and where appropriate to the Management Board. The RA will be updated accordingly and clients and customers informed within a reasonable period of a change being agreed.
### 2. Who should go to work?

<table>
<thead>

</table>

## 2.4 Ventilation

### Objective:

To use ventilation to mitigate the risk of aerosol spread of COVID-19 in enclosed spaces.

Ventilation into the building should be optimised to ensure the maximum fresh air supply is provided to all areas of the facility wherever possible.

Ventilation systems should provide a good supply of fresh air.

### Heating Ventilation and Air Conditioning

- Most air conditioning systems will not need adjustment, however, advice can be sought from the heating ventilation and air conditioning (HVAC) engineers or advisers
- Ensure all HVAC units are serviced and maintained as detailed in the Compliance Toolkit
- Where centralised systems are in place, check the functionality (with contractor/engineer) to see if air is distributed between rooms or contained within each room. Re-circulation of air between spaces, rooms or zones occupied by different people should be avoided
- Any HVAC system that normally runs with a re-circulation mode should be re-set to run on full outside air where this is possible
- In the case of any systems serving a single space, partial re-circulation of air within that space, such as through a local fan coil unit, is less of a concern as the primary objective is to maximise the air exchange rate with outside air and to minimize the risk of any pockets of stagnant air
- Open windows and doors frequently to encourage ventilation where possible and ensure ventilation grilles are kept clean
- Monitor and manage filters in accordance with the manufacturer’s instruction
- Operate the ventilation system when there are people in the building

### CMs and ACMs

Ongoing
<table>
<thead>
<tr>
<th>Those likely to be at risk</th>
<th>Recommended government guideline</th>
<th>OI response to risk</th>
<th>Action - by whom?</th>
<th>Action by when?</th>
<th>Complete</th>
</tr>
</thead>
</table>
|                           |                                | • Increasing the existing ventilation rate by adjusting the fan speed  
• Each centre should refer to this HSE guidance to identify any poorly ventilated spaces: ventilation and air conditioning during the coronavirus (COVID-19) pandemic (hse.gov.uk)  
• If ventilation in poorly ventilated spaces cannot be improved, centre teams should consider whether it’s safer to restrict the time spent in these spaces and the number of people that access these spaces, or stop using them altogether. | CMs and ACMs      | Ongoing         |          |

### 3. The workplace

**ALL**

**Objective:** To ensure increased hygiene in the workplace.

- Ensure that sanitiser wipes are provided at high-touch-point areas to disinfect equipment between use
- Communicate by telephone, email, Teams, Zoom and other IT platforms to minimise face-to-face contact whenever possible; clean equipment between use
- Reduce movement by discouraging non-essential trips to, from and within buildings, restricting access to low-use or confined areas

**Action - by whom?** CM and ACMs

**Action by when?** On demand

### 3.1 Workstations

**STAFF**

**Objective:** To reduce the risk of spreading COVID-19 by reducing the number of people that workers come into contact with.

**Workstation (and shared equipment)**

- Workstations should be assigned to an individual and not shared. If they need to be shared this must be by the smallest possible number of people and cleaned before and after use
- Provide hand sanitiser or disinfectant wipes where equipment will be handled, as set out in the OI Cleaning Specification (see 5.1)

**Action - by whom?** All

**Action by when?** Ongoing

---

---
### 3.2 Meetings

**Objective:**
To reduce transmission through enhanced hygiene in the workplace.

- Use remote working tools to avoid in-person meetings or limit the numbers involved in in-person meetings
- Provide hand sanitiser in all meeting and conference rooms and clean before and after use
- Hold meetings outdoors or in well-ventilated rooms whenever possible
- Avoid sharing pens, documents and other objects

**Action - by whom?**
CMs & ACMs

**Action by when?**
Ongoing

### 3.3 Common Areas

**Objective:**
To ensure increased hygiene in the workplace.

**Cafes**
<table>
<thead>
<tr>
<th>Those likely to be at risk</th>
<th>Recommended government guideline</th>
<th>OI response to risk</th>
<th>Action - by whom?</th>
<th>Action by when?</th>
<th>Complete</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td></td>
<td>• HMG continues to encourage businesses to display QR codes for customers to check in using the NHS COVID-19 app, to support NHS Test and Trace Kitchens, Kitchenettes and Tea Points • Encourage “kitchen etiquette”: o don’t hog or linger o clean hands, utensils and equipment before and after use, as set out in the OI Cleaning Specification (5.1) o wipe down touch points before &amp; after</td>
<td></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

### 3.4 Accidents, security and other incidents

**ALL**

**Objective:**

To prioritise safety during incidents.

- All COVID incidents should be recorded on Activ
- People providing assistance to others should pay particular attention to sanitation measures immediately afterwards, including washing hands
- Emergency evacuation plans are to be held in the e-reception iPad and sent to contractors and visitors once registered
- Display updated Emergency Evacuation Plans in all meeting rooms and at key locations throughout common areas, and by call emergency call points

**The Reporting of Injuries, Diseases and Dangerous Occurrences Regulations 2013 (RIDDOR)**

In cases where:

- CM or ACMs
- As necessary
### 4. Managing your customer, visitors & contractors

#### 4.1 Manage contacts

<table>
<thead>
<tr>
<th>ALL</th>
<th>Objective:</th>
<th>Action - by whom?</th>
<th>Action by when?</th>
<th>Complete</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>Minimise the number of unnecessary visits to the workplace and make sure people understand what they need to do to maintain safety.</td>
<td>Deputy MD</td>
<td>26 July 2021</td>
<td>✓</td>
</tr>
</tbody>
</table>

- Revise visitor arrangements to ensure hygiene, e.g. where physical signing-in is the norm
- The layout and configuration of reception areas must protect CEAs and staff on duty at all time
- Leave plexiglass barriers in situ as a precautionary element of protection, ensuring they are cleaned and disinfected as often as is appropriate
- Restrict access to the e-reception iPad - to CEAs or person on duty
<table>
<thead>
<tr>
<th>Those likely to be at risk</th>
<th>Recommended government guideline</th>
<th>OI response to risk</th>
<th>Action - by whom?</th>
<th>Action by when?</th>
<th>Complete</th>
</tr>
</thead>
</table>
|                           |                                 | • Hand sanitiser to be made available for all visitors or hand washing facilities as they enter the premises  
• All persons entering the centre are required to book in and out via the e-reception Companion App (HMG continues to encourage businesses to check in using the NHS COVID-19 app, to support NHS Test and Trace)  
OI and customer contractors must present RAMS prior to all works and their clean-down procedure at the end of each day or activity must be in line with HSE guidance | All | Ongoing |          |

4.2 Providing and explaining available guidance

**ALL**

Objective:

To make sure people understand what they need to do to maintain safety.

• All staff, customers, visitors & contractors should be briefed on the hierarchy of control measures when booking into the IC  
• Signage is to be displayed for the IC control measures set out in this Risk Assessment; signage that is no longer relevant should be removed and stored  
• Web banners to be updated with a link to this Risk Assessment

CMs | As necessary |
Head of Marketing | 2 August 2021 | ✔

5. Cleaning the workplace and infection control

5.1 Keeping the workplace clean

**ALL**

Objective:
<table>
<thead>
<tr>
<th>Those likely to be at risk</th>
<th>Recommended government guideline</th>
<th>OI response to risk</th>
<th>Action - by whom?</th>
<th>Action by when?</th>
<th>Complete</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>To keep the workplace clean and prevent the spread of COVID-19 by touching contaminated surfaces.</td>
<td>• Urge everyone to follow the guidance on hand washing and hygiene (see 5.2), which will minimise the risk of infection from frequently touched surfaces • Provide hand sanitiser around the workplace (see 5.2) • Frequently clean and disinfect objects and surfaces that are touched regularly, in accordance with the OI Cleaning Specification • Review the OI Cleaning Specification</td>
<td>All</td>
<td>Ongoing</td>
<td>Operations Director</td>
</tr>
</tbody>
</table>

Cleaning after a known or suspected case of COVID-19 should be in accordance with the OI Cleaning Specification, available in the OI QMS. Sanitisation Fogging deep cleans of potentially contaminated areas should be carried out in addition to the normal cleaning regime. The COVID-19 Positive aide memoire provides further guidance on Sanitisation Fogging deep cleans and is available in the OI QMS.

### 5.2 Hygiene – handwashing & sanitation facilities

**ALL**

**Objective:**
To help everyone keep good hygiene through the working day.

The best way to prevent the spread of infections and decrease the risk of getting sick is by washing your hands with plain soap and water. Washing hands often with soap and water for at least 20 seconds is essential, especially after going to the bathroom; before eating; and after coughing, sneezing, or blowing one’s nose. If soap and water are not available, an alcohol-based hand sanitizer that contains at least 60% alcohol must be used.

**Hand sanitiser**

Where hand sanitiser or pop-up handwashing stations have been installed / provided, they should be left in situ, e.g. in the following locations:

<table>
<thead>
<tr>
<th>All</th>
<th>Ongoing</th>
<th>CM or ACMs</th>
<th>Ongoing</th>
</tr>
</thead>
</table>

11
<table>
<thead>
<tr>
<th>Those likely to be at risk</th>
<th>Recommended government guideline</th>
<th>OI response to risk</th>
<th>Action - by whom?</th>
<th>Action by when?</th>
<th>Complete</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td></td>
<td>o Entries and exits</td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td></td>
<td></td>
<td>o Meeting rooms</td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td></td>
<td></td>
<td>o Immediately adjacent to WCs</td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td></td>
<td></td>
<td>o Common areas</td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td></td>
<td></td>
<td>o Common area doors that cannot be left open</td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td></td>
<td></td>
<td>o Delivery areas</td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td></td>
<td></td>
<td>o Reception and waiting areas</td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td></td>
<td></td>
<td>o Communal printers</td>
<td></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

Use signs / posters at these locations to maintain awareness of:

- o how to wash hands well
- o washing hands frequently
- o avoiding touching face
- o coughing or sneezing into a tissue which is binned safely, or into crook of arm if a tissue is not available

If possible, provide paper towels as an alternative to hand dryers in handwashing facilities. Monitor waste collections and provide more facilities / more frequent rubbish collection if required.

**5.3 WCs, changing rooms & showers**

**ALL**

**Objective:**
To minimise the risk of transmission in WCs, changing rooms and showers.

- Provide hand sanitisers outside WCs
- Clean according to the OI Cleaning Specification (5.1)

**Action - by whom?** ACMs  
**Action by when?** Ongoing

**6. Face coverings**
<table>
<thead>
<tr>
<th>Those likely to be at risk</th>
<th>Recommended government guideline</th>
<th>OI response to risk</th>
<th>Action - by whom?</th>
<th>Action by when?</th>
<th>Complete</th>
</tr>
</thead>
</table>
| ALL                       | Objective: To guide on the use of face coverings. | Face coverings are not classed as PPE because:  
  - there is currently no need to conform to a manufacturing standard  
  - they do not provide protection for work risks such as dust and spray.  
  However, staff, customers, visitors and contractors are recommended to continue using face coverings where they come into contact with people they don’t normally meet, in enclosed and crowded spaces, (e.g. in a lift or during sales viewings) and provided they:  
  - wash hands thoroughly with soap and water for 20 seconds or use hand sanitiser before putting a face covering on, and after removing it  
  - avoid touching their face or face covering, as this could contaminate with germs from hands  
  - change their face covering if it becomes damp or if it’s been touched  
  - change and wash the face covering daily  
  - if the material is washable, wash in line with manufacturer’s instructions. If it’s not washable, dispose of it carefully in normal waste  
Some people are exempt and do not have to wear a face covering including for health, age or equality reasons. | All | As appropriate | | |

### 7. Workforce management

#### 7.1 Internal working patterns

<p>| STAFF | Objective: To minimise the number of close | | All | Ongoing |</p>
<table>
<thead>
<tr>
<th>Those likely to be at risk</th>

Where to obtain further guidance

HMG Recovery Strategy (COVID Road Map):

Guidance for employers, employees and businesses: working safely during COVID-19:

### APPENDIX A - DEFINITIONS

| Common Areas | The term ‘common area’ refers to areas and amenities which are provided for the common use of more than one person including canteens, reception areas, meeting rooms, areas of worship, toilets, gardens, fire escapes, kitchens, fitness facilities, store rooms, laundry facilities. |
| Clinically extremely vulnerable | Clinically extremely vulnerable people will have received a letter telling them they are in this group or will have been told by their GP. Guidance on who is in this group can be found here: [https://www.gov.uk/government/publications/guidance-on-shielding-andprotecting-extremely-vulnerable-persons-from-covid-19/guidance-onshielding-and-protecting-extremely-vulnerable-persons-from-covid-19](https://www.gov.uk/government/publications/guidance-on-shielding-andprotecting-extremely-vulnerable-persons-from-covid-19/guidance-onshielding-and-protecting-extremely-vulnerable-persons-from-covid-19) |
| Clinically vulnerable people | Clinically vulnerable people include those aged 70 or over and those with some underlying health conditions, all members of this group are listed in the ‘clinically vulnerable’ section here: [https://www.gov.uk/government/publications/full-guidance-on-staying-at-home-and-away-from-others/full-guidance-on-staying-at-home-and-awayfrom-others](https://www.gov.uk/government/publications/full-guidance-on-staying-at-home-and-away-from-others/full-guidance-on-staying-at-home-and-awayfrom-others) |
